

## Buddy's Bears Thank You

With his giant round head and big supple feet,  
The child holds him tight the very first time they meet,  
The boy or girl lost so much in last summer's weather,  
Now they have their bear to face the future together,  
A Teddy bear loves that child regardless where they reside,  
In a tent, or a trailer, or sitting by the roadside,  
No matter what-else they get in future Decembers,  
It's this toy that the kid for a lifetime remembers,  
Years from now, when these kids have prospered and grown,  
When they look through their old toys with kids of their own,  
They'll find that stuffed bear you donated this year,  
And be grateful again with a smile and a tear,  
So Merry Christmas to you, and for all that you've shared,  
and thank you for so much for your Buddy's Bear...
